Item 21

- **Item 1.** My mother had a tub like this in the basement by the washing machine of 524 Carpenter St. I believe her's had a brass tub.
- **Item 2.** A vintage grain sifter.
- **Item 3.** A vintage animal (dog, goat or sheep) tread mill, to perform household chores.
- **Item 4.** As I remember, these 4 leg benches came from Mr. Cook's home, where I bought the Overland. They may have been on the second floor balcony to hold potted plants. (a guess).
- **Item 5.** I'm uncertain what it was used for. See item 4.
- **Item 6.** During the early 1900's Western Electric, pioneers in the telephone industry, manufactured heavy belt driven generators. This generator was patented on November 8th, 1902. I had planned to hook it up to one of my steam engines.
- **Item 7.** Ca. 1925 Ingersol-Rand air compressor with a 4 cylinder engine with a magneto. This could give the 75 pound air pressure to run my steam engines, without needing a boiler.
- **Item 8.** Amos Hinks made this picnic table largely from the Cypress fire tower at the Star Drilling Machine Company. He made 2, one for us, and one for the Spanglers. I helped carry off the huge timbers, which were like huge pick up sticks. I sprained my ankle in the process.
- **Item 9.** Buckets for gathering sap from the sugar maples. This sap was boiled down in the sugar shed, and finished on the stove in the downstairs kitchen, He didn't sell any, but gave it to his friends. Some called him the maple syrup king of Carroll County.
- **Item. 10.** This looks like a kettle used in butchering. I don't remember seeing it.
- **Item 11.** Top half of a 2 piece corner cupboard It needs to be put on the bottom for the sale. A nice vintage cabinet.

- **Item 12.** I probably bought the wagon wheels in Gettysburg from the George Ollinger estate. Not sure.
- **Item 13.** Vintage hay rake with the seat. The Amish could still use it.
- **Item 14.** This appears to be an antique corn sheller. Nice!
- **Item 15.** This appears to be some type of belt driven pump.
- **Item 16.** Centrifugal cream separator.
- **Item 17.** An usual clamp. I don't remember seeing it at the farm.
- **Item 18.** This is the shaft for pulling up the bucket in the well. I believe it came from a home that was going to be torn down. I think i got a piano from the home.
- **Item 19a.** See item 4.
- **Item 19d.** this an early pew from a Brethren church. The seat could be lifted for the love feast at communion.
- **Item 20.** Surge vacuum pump model SP-II. These were used with milking machines and later was adapted by maple syrup producers.
- **Item 21.** Grindstone from a mill near Gettysburg, PA. From the George Ollinger estate.
